MALAYSIAN ASSOCIATION OF RISK AND INSURANCE MANAGEMENT

Dear Members,

Greetings!

*It is our vision to promote MARIM to all companies as risk management is everyone's business and sharing of information among members is vital for further development in the field.*

*To date, MARIM has 24 Ordinary Members, 16 Affiliated Members and 27 Individual Members.*

*At this stage, we have planned various activities for members throughout year 2011. We will announce the tentative dates so that members can plan their schedule to attend MARIM's event. As a non-profit organization MARIM stand on members support and members satisfaction is all that we want to hear.*

*Thank you to Maxis Mobile Sdn Bhd and UUM Student Chapter for your contribution.*

*Your contribution will certainly ensure the success of our events.*

*If you have any stories, please share them with all of us.*

*Happy reading!*

# SEMINAR PENGURUSAN RISIKO DALAM SUKAN

En Halim Bin Jantan

Prof. Dr Abdul Hafidz Bin Hj. Omar

TO OUR SPEAKERS, A BIG THANK YOU

Pn Maisatun Nor Binti Masuan

Dr Wan Norhayate Bt. Wan Daud

Risk management in sport is a method of systematically and efficiently managing the things that bring no harm or loss. The seminar was held on 30 March 2011 at Institute Sukan Negara, Bukit Jalil.

The objective was to

- ❖ Raise awareness about the risks of the sport amongst players of sports as athletes, coaches and officials
- ❖ Describes and illustrates the risks that occur in sports activities and organizations
- ❖ Settle on effective risk management tools and methods to minimize the risk of the sport
- ❖ Provide a platform for all sports players to talk openly about risk management in sport

## Door Fan Test

Contribution by Maxis Mobile Sdn Bhd

Most of our data centres are protected by gas suppression systems and we never really know if the gas discharge is sufficient to put out a fire.

To test out the adequacy of our suppression system, we would recommend a door fan test. This test involves pressurising the room to a certain level. This is achieved by mounting a powerful fan with a flexible panel into the frame of the room's main door (see pic). The fan pulls air out thus lowering the air pressure to a predetermined level. A discharge of the gas suppression system is then simulated. The readings captured would determine if the existing gas suppression system in that room is adequate to put out a fire in the event it happens.

A very useful test to identify a room that requires modifications without actually discharging your gas suppression systems!!

## MARIM Student Chapter Educational Delegation 2011

Contribution by Farhan Nasaruddin, UUM Student

On the 23<sup>rd</sup> of February, 2011, the student body of MARIM in Universiti Utara Malaysia (UUM), known as MARIM Student Chapter (MSC), went on their annual educational delegation to Kuala Lumpur. The delegation involved 39 students, most of whom are students of Risk Management and Insurance. Accompanied by Encik Zairol Azhar, who is a senior lecturer in UUM and also the club's advisor, the delegation aims to increase the participants' awareness and knowledge of Risk Management and Insurance in Malaysia, and to strengthen the bond between the participants. Besides that, the delegation also aims to promote the sense of adventurism among the participants and to broaden the participants' mindset of the field of Risk Management and Insurance.

The delegation started off with a visit to the International Institute of Islamic Thought and Civilization (ISTAC) in Kuala Lumpur, where the participants of the delegation were given a brief talk on the risk management framework of the institute. After the talk, the participants were given the rare opportunity to explore the ISTAC library, which is normally inaccessible to the public. After the visit to ISTAC, the delegation visited the National Science Centre for a fun-filled afternoon. The visit to the National Science Centre gave the participants the chance to develop their scientific knowledge and abilities, and also helped to strengthen the bond between the participants.

After the visit to the National Science Centre, the delegation headed to MII, where the participants were briefed on the current development of the insurance industry. The delegation was graced by the presence of Puan Khadijah Abdullah, who is the CEO of MII. During the talk, the participants were exposed to the various career opportunities in the Risk Management and Insurance field.

On the second day, the delegation headed to the Institute of Petroleum Technology – PETRONAS (INSTEP- PETRONAS). At the institute, the participants of the delegation were given a wonderful talk by the Group Risk Management Unit of Petronas. After that, the participants were given the opportunity to experience the Skybridge of the Petronas Twin Tower (KLCC) and learn about the risk management of the iconic tower.

The educational delegation to Kuala Lumpur was indeed a memorable experience for the participants as it was successful in reaching its objectives. Hopefully, the annual delegation will continue to be organized in the future for the benefit of the future Risk Managers of the World.

**MARIM** MARIM's 2010  
**Golf Tournament**

VENUE : BUKIT KEMUNING GOLF & COUNTRY RESORT

DATE : 19 DECEMBER 2010

*Congratulations to the Winners!!!*

**Main Prize**

- 1<sup>st</sup>: Kamal Izat  
2<sup>nd</sup>: Dr. Shamsul Anuar Mohd Halip  
3<sup>rd</sup>: Tn Hj Zainuddin Othman

**Medal A Winners**

Royzamir Fizan  
Razi Sulaiman  
Siow Chon Heng  
Shahrin Abd Karim  
Abdul Aziz Hussin

**Medal B Winners**

Hamir Abdullah  
Osman Ahmad  
Abd Mutalib Mohamed  
Mohd Fuad Ahmad  
Zailan Ahmad

**Novelties Hole Winners**

NTP Hole 11	O P Choong	7' 1"
NTP Hole 6	Kamal	16'0"
NTP Hole 13	Osman	3'10"
