08:30 REGISTRATION WITH BREAKFAST

09:30 WELCOME ADDRESS

09:45 RISK OUTLOOK 2025

The risk outlook helps speakers anticipate potential challenges or disruptions, enabling proactive planning to manage uncertainties and ensure successful, impactful presentations and audience engagement.

Dr David Teo Kwang Joo, Regional Medical Director - Asia, International SOS

10:30 NETWORKING | COFFEE BREAK

11:00 BUSINESS RESILIENCE IN A WARMING WORLD

ISO 32001 has been updated to incorporate climate risk, emphasizing the need for organizations to assess and manage climate-related impacts. The changes include enhanced guidelines for integrating climate risk into decision-making processes, fostering resilience, and ensuring sustainability. These updates aim to strengthen business practices in a warming world.

Henry Ee, Managing Director ,BCP Asia

12:00 LUNCH

14:15 ENERGY EFFICIENCY TO MANAGE CLIMATE RISK

This session highlights the importance of energy efficiency in mitigating climate risks. It covers innovative technologies, best practices, and policies that help organizations reduce energy use, cut emissions, and enhance resilience to climate challenges, all while promoting sustainability and cost-effectiveness for a more secure future.

Kaveta Chelliah, Head of Sustainability Engineering, OPUS Consultants
