Overview

This seminar gathers professionals to tackle today's complex risks, from cyber threats to geopolitical shifts. It offers a platform for Malaysian companies to learn, network, and explore innovative solutions through expert talks, interactive sessions, and panel discussions.

Objectives

- Sharing key risk trends for the next five years.
- Exploring data-driven and parametric insurance solutions.
- Addressing AI-driven cyber risks with practical scenarios.
- Encouraging collaboration among risk managers and experts.
- Promoting networking to spark innovation.
