Overview

This seminar gathers professionals to tackle today's complex risks, from cyber threats to climate change. It offers a platform for Malaysian companies to learn, network, and explore innovative solutions through expert talks, interactive sessions, and panel discussions.

Objectives

- Sharing key risk trends for the next five years.
- Exploring data-driven and parametric insurance solutions.
- Addressing AI-driven cyber risks with practical scenarios.
- Encouraging collaboration among risk managers and experts.
- Promoting networking to spark innovation.

Event Agenda

8.00 am	Registration and Networking Breakfast
9.00 am	Opening and Welcome Address
9.10 am	Emerging Risks: Rethinking Cyber Resilience in the Age of Artificial Intelligence <i>Priyesh Pradhan, Senior Underwriter heading Professional Financial Risks and Cyber, Markel India</i> A deep dive into real-world AI-driven cyber incidents, evolving policy coverages, and market trends. The session will highlight lessons from case studies, the importance of strong cybersecurity, and how risk managers are rethinking emerging risks in today's digital landscape.
9.50 am	Harnessing Data & Parametric Solutions for Smarter Insurance Buying <i>Seow Wee Beng, Head of Southeast Asia, Descartes Underwriting, Singapore</i> Discover how data and parametric solutions are transforming insurance purchasing decisions. Featuring case studies on parametric triggers for supply chain and weather-related risks, this session highlights how innovation and analytics enable faster payouts, smarter coverage, and greater resilience
10.30 am	Networking Break
11.00 am	Strengthening Governance and Resilience in the Age of AI-Driven Threats <i>Benny Kiong, Cyber Underwriter Financial Lines, QBE Malaysia</i> This session examines how organizations can strengthen governance and align risk controls with insurance coverage to address emerging AI-driven cyber threats. It will discuss the evolving intersection of model risk, board accountability, and policy wordings, emphasizing practical strategies for enhancing resilience and ensuring comprehensive protection in an increasingly complex risk environment
11.15 am	Panel: Future-proofing Risk and Insurance Management in Malaysia <i>Moderated by Shalini Pavithran, Chief Executive Officer, Singapore College of Insurance</i> <i>Panellist: Benny Kiong, Cyber Underwriter Financial Lines, QBE; Eddy Hon, Country Manager, Howden; Lim Wai Yin, Head of Risk Management, Malaysia Airports Holdings Berhad</i> Industry leaders discuss how Malaysian organizations can strengthen resilience and adapt their risk and insurance strategies to address emerging challenges - from technology and cyber risks to regulatory and environmental shifts. The session highlights collaboration and innovation as key drivers for future-proofing risk management in Malaysia.
12.00 pm	Managing the Chaos: Effective Response to Cyber Incidents <i>Jeremiah Abraham Selvaraj, Cybersecurity Solutions Consultant, CyberArmour</i> This session, led by CyberArmour, demonstrates the critical decision-making, coordination, and communication required to manage and mitigate cyber incidents effectively.
12:45 pm	Closing Address

Speaker Profile

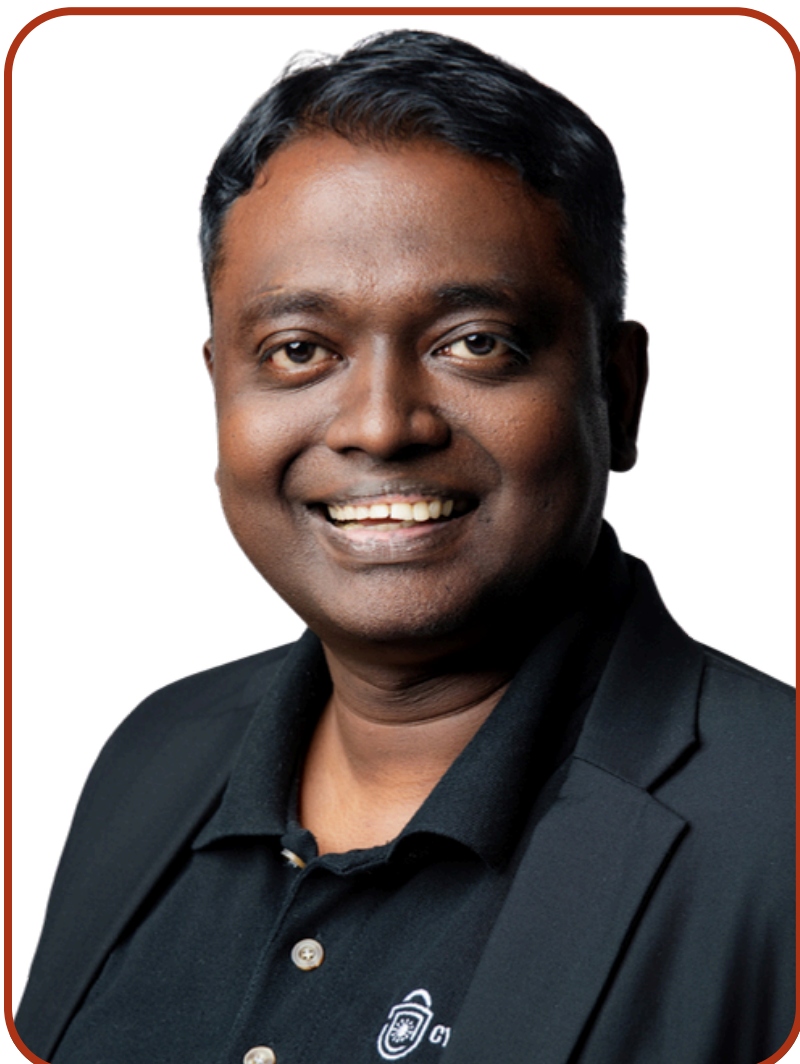

**Priyesh Pradhan,
Senior Underwriter Professional Financial Risks and Cyber
Markel India**

Priyesh is working as Senior Underwriter heading Professional Financial Risks and Cyber at Lloyds Syndicate 3000 Markel India. Over last 19 years he has been working as professional in non-life Insurance industry handling varied functions like Broking relations, Techno marketing and Liability underwriting on Pan India basis. Priyesh has been part of esteemed Indian organisations like Bajaj Allianz, Tata AIG, Raheja QBE and HDFC Ergo prior to joining Markel India in June 2022. In his current role at Markel India, as head of Professional financial risks and Cyber, he is instrumental in developing business in India, SAARC Countries and other asian markets.

**Wee Beng SEOW,
Head of Southeast Asia
Descartes Underwriting, Singapore**

Wee Beng Seow is Head of Southeast Asia at Descartes, a global corporate insurer working with brokers to protect their corporate and public sector clients against climate and other emerging risks. Based in Singapore, he has been with the firm for the last four years. With a focus in the Asia-Pacific region, he collaborates closely with brokers and corporate clients to develop tailored parametric solutions that address their specific needs. Prior to joining Descartes, Wee Beng has worked as an insurance broker in multinational broking houses, specialising in placing global property and casualty programs for companies with assets across various territories.

**Jeremiah Abraham Selvaraj,
Cybersecurity Solutions Consultant,
CyberArmour**

Jeremiah is a seasoned IT professional with 15 years of experience specializing in IT and Cyber Security, particularly in delivering large-scale IT infrastructure support and solutions. He currently heads the Cybersecurity Solutions business unit at Cyberarmour, a boutique firm focused on cutting-edge threat reduction. Jeremiah leverages a deep understanding of complex security integration across technologies like Cisco, Fortinet, Zscaler, and Microsoft to help organizations navigate cyber threats. He frequently consults for CTOs and CISOs on enterprise IT infrastructure and cloud services, making him ideally suited to discuss effective cyber incident response.
