Masterclass

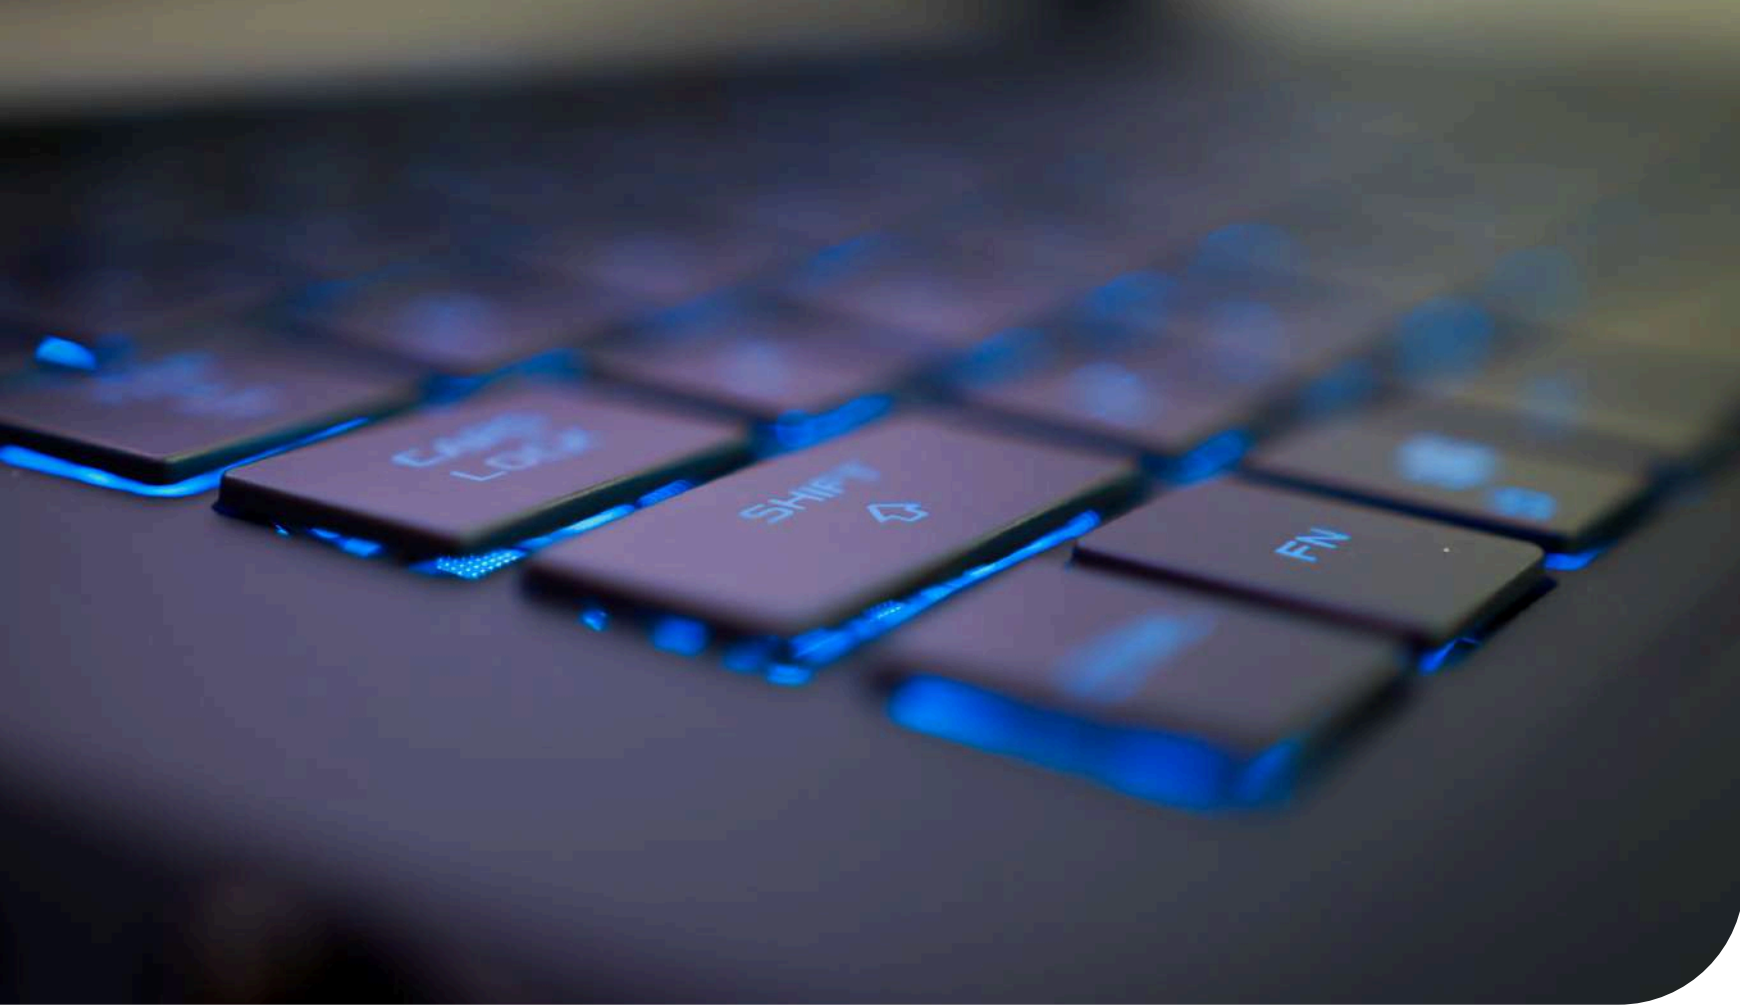

# BUSINESS INTERRUPTION IN PRACTICE: CALCULATING LOSS IN A VOLATILE WORLD

by Andreea Ilie, Partner, MDD Forensic Accountants

27 July 2026  
9am to 5pm  
Le Meridien Putrajaya

**Member RM980**  
**Non-Member RM1,180**

# Learning Objectives

By the end of this Business Interruption (BI) Insurance class, participants will be able to understand and apply the core principles of BI coverage within today's dynamic risk environment. They will gain a clear understanding of fundamental BI concepts, including how losses are calculated step by step, and how different disruption scenarios influence these calculations.

Participants will be able to analyze the impact of economic volatility, geopolitical events, and supply chain disruptions on BI exposures, and incorporate these factors into more accurate loss assessments. They will also develop familiarity with advanced BI topics such as contingent business interruption and cyber-related risks.

Through case studies and practical exercises, participants will build hands-on experience in evaluating BI scenarios. In addition, they will learn to identify the relevant policy wordings applicable to BI, and address challenges arising from incomplete or imperfect data.

# Masterclass Agenda

Masterclass

- 09:00** Welcome and Introduction
- 09:30** BI Fundamentals & Calculations
- 10:30** Coffee Break

# Speaker Profile

Andrea began her career with MDD London office over 20 years ago before relocating to Singapore in 2007 to support the growth of MDD's first Asia-Pacific office. As a Partner in MDD, she has extensive experience quantifying economic damages across diverse industries, including energy, oil and gas, petrochemicals, palm oil, pulp and paper, manufacturing, retail, transportation, and hospitality. She is widely recognised for her in-depth knowledge of the claims process in Southeast Asia. Andrea has delivered seminars and training on topics such as business interruption measurement to claims managers, underwriters, loss adjusters, and lawyers across Asia and the UK.
